RELEVANT EXPERIENCE

***Marketing AI Customer Analytics Project Leader*,** Rady School of Management 01/2026 – 04/2026

- Built end-to-end customer propensity machine learning models (regression, neural networks, random forest, XGBoost) in a team of 3 using Python + GitHub to predict upgrade likelihood, ranking customers for targeted campaigns
- Developed uplift models to estimate incremental treatment impact to optimize targeting strategy versus traditional response modeling, evaluating model performance using ROC-AUC, lift curves, gains charts, and profit analysis
- Translated performance into targeting & economic insights for scaling to a 700k+ database and advising optimal targets

***Operations & Analytics Lead*,** Rain on Fridays LLC, San Diego, CA 01/2020 – Present

- Co-founded business partnership and managed operations in a data-driven independent music venture
- Directed e-commerce & merchandising operations and vendor performance analysis, reducing per-item costs by 20%
- Identified growth opportunities to scale operations across 10+ new markets through data analysis and performance tracking, informing process improvements for inventory planning and promotional strategy
- Analyzed POS and streaming datasets using Excel & CRM to forecast costs, optimize budget allocation, and deliver cross-functional teams with automated recommendations and reporting for decision-making & data privacy
- Managed business finances: expense tracking, tax preparation, & bookkeeping using QuickBooks & Rocket Money

***Project Management Intern*,** The Banshee, San Diego, CA 11/2024 – 09/2025

- Designed & implemented a 150+ item database, powering a new ordering & scheduling systems for 10+ staff
- Managed payroll processing & maintained order budgets, supporting day to day finance & accounting operations
- Optimized procurement workflows by evaluating supplier performance metrics, reducing operational costs by 20%
- Leveraged transaction data & market trends to find revenue drivers & inefficiencies, increasing event revenue by 35%

PROJECTS

Capstone Project Analyst & Consultant, Local Media San Diego 03/2026 – 06/2026

- Designing a listener behavior prediction & support system to centralize data across 3 stations & optimize programming strategy, partnering with stakeholders to produce actionable engagement insights & improve retention

Large Data Project*: *California Crime Dashboard, MGTA452, Rady School of Management 09/2025 – 12/2025

- Built and launched an interactive GitHub hosted web dashboard, performing ad hoc analysis & modeling using Python to translate large public crime datasets into accessible insights for technical and non-technical audiences

***Snowflake ETL – SQL & Python Data Analytics Project*,** MGTA464, Rady School of Management 08/2025

- Engineered an end-to-end ETL pipeline in team of 3, processing 30k+ records, transforming raw purchase order and supplier data into structured, analysis-ready databases, schema, views, and tables using Python, SQL, and Snowflake

***Business Consulting (Capstone)*,** Pura Vida, MIS-306, San Diego State University 08/2021 – 12/2021

- Led gap analysis in team of 5 to find supply chain fulfillment gaps, proposing outsourced recommendations w/ SDLC
